Mr. Weisberg & Mrs. Weisberg:

Dateline on NBC ran a story tonight about Robert Oswald. It featured the same old misinformation and it seems Robert buys it too. He thinks Lee did it. Hasn't he read any of your books? Each time a book or story comes out "validating the myth" I get so frustrated. I imagine how you must feel. Isn't there anyone out there with some clout and connections to get your story out? The real story. Evidence that can't be disputed. It seems that somehow, someway it could happen. Enough time has passed. I wish I could do something but I'm a struggling actor with zero influence anywhere. I'm sure you've gotten letters like this and I'm sure you've been trying your hardest. If anything this can be a letter of encouragement. Hope things are going well.

Sincerely,

John (Andy) Delaton
